IQ™ DIGITAL LOCK BOX

THE SOLUTION STARTS IN THE HOME

Safeguard your home and protect your loved ones with a proactive approach to storage. Designed to fit seamlessly in your Robern medicine cabinet, the IQ Digital Lock Box features a discreet low-profile design and enhanced smart technology to keep your most important items secure.

Ultimate Home Safety

Keep prescription medications, valuables, documents, and other personal items out of sight and out of the wrong hands. Featuring three methods of secure entry, as well as remote monitoring and real-time alerts on your smartphone, the IQ Digital Lock Box offers reassurance that sensitive items are always safely stored away.

Total Peace of Mind

Put confidence and control at your fingertips with intelligent monitoring, medication scheduling, and notifications. A built-in security sensor provides tamper alerts and entry notifications when the lock box is accessed, giving you 24/7 supervision over your storage — no matter where you are.

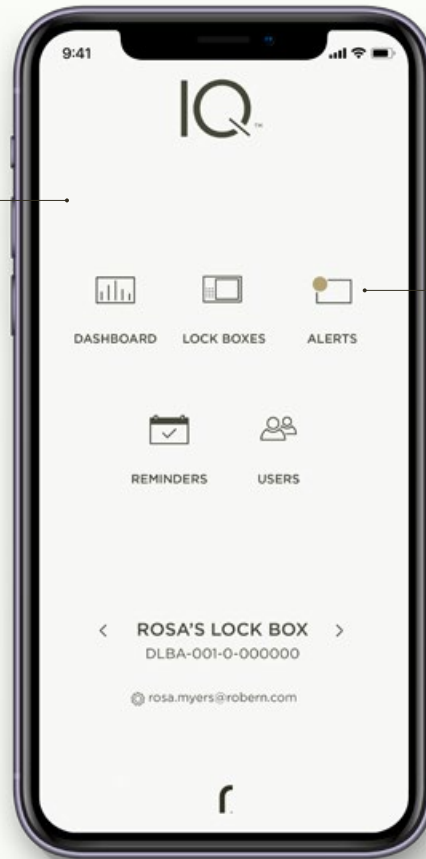

Touch Keypad

Protect personal items and valuables with a passcode for secure access.

Keyed Entry

A physical key can be hidden for backup, to ensure access when it's needed.

Smart Technology

Install the Robern IQ Digital Lock Box app on your smartphone or sign into the IQ Web Portal for on-the-go access. Monitor multiple lock boxes, schedule reminders, unlock remotely, and receive real-time alerts.

Notifications

Schedule medication reminders to keep your health and wellness on track, and get alerts when lock box activity takes place.

Premium Design

Add security without compromising luxury. The IQ Digital Lock Box is color-matched to coordinate with your cabinet interior for inconspicuous storage, while the water-resistant exterior keeps your medications and valuables protected from moisture. Choose from a mounted lock box for an extra layer of security or a freestanding configuration for flexible installation.

Mounted

A thoughtfully designed mounting system installs easily into your Robern cabinet and secures your lock box in place.

Freestanding

No installation required — simply place the standalone lock box on the shelf of any medicine cabinet and receive alerts if it's accessed or moved.
