THE INSPIRATION BEHIND CARTESIAN

In the 17th century, René Descartes revolutionized mathematics by introducing an infinite coordinate system to define three-dimensional space. Inspired by this system, the Cartesian Collection from Robern transformed the modern vanity market by providing a configurable storage solution that expands the possibilities for every dimension of your design.

Modular Vanities

BUILD YOUR OWN

Explore your options with the world's most accommodating vanity. Create a modern nightstand, add seamless storage in a dressing area, or bring high-tech functionality into your bathroom. Wherever storage is needed, Cartesian modular vanities provide the building blocks to create a flexible solution that fits flawlessly into any space.

Personalize your Cartesian vanity with functional features designed to make the everyday routine feel effortless, from organizational accessories to in-drawer outlets and built-in night lighting. The modern floating design maximizes spaces and allows for easy cleaning underneath.

Modular Vanities

1 CHOOSE YOUR OVERALL WIDTH, HEIGHT, AND DEPTH

Select the overall **width** of your vanity using multiples of 12", 24", 30", and 36" (Cartesian drawer width options **W**) to create the overall length that you would like. This defines the number of columns and width of each column that you can build upon.

Select the **height** for each drawer column based on multiples of 7-½" and 15" (Cartesian drawer height options **H**). Columns may be varying heights, but all columns within a design must be the same depth and must connect to the countertop. Every drawer within a single column must be the same width and depth. The ideal height for your countertop is 34-½" off the ground.

7-½" drawer type options

- Tip Out Drawer
- Plumbing Drawer
- Full Drawer
- False Front

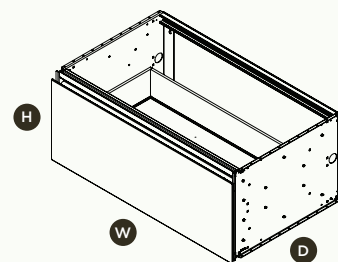

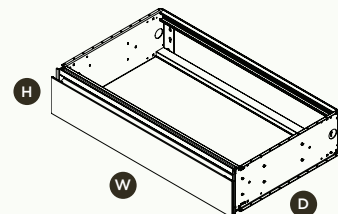

15" drawer type options

- Plumbing Drawer
- Full Drawer

Note: When using an undercounter sink, the first 15" requires plumbing clearance. Ganging kits are required to combine more than one column of drawers. Side kits are available up to 30".

Select the desired **depth** **D** of your entire vanity solution by choosing either 18" (for a 19" depth vanity top) or 21" (for a 22" depth vanity top).

NOTE: All columns must be the same depth.

In this example, the overall width of the vanity is 96" using 12" and 24" wide drawers. The overall column height is 15" using 7-½" high drawers. And the depth of the vanity is 21".

2 CHOOSE YOUR DRAWER TYPE

Select the drawer type that best accommodates your available space, plumbing considerations, and storage needs. A tip out drawer provides hidden storage for smaller items; a plumbing drawer allows clearance for a drain; a full drawer provides optimal storage for all your essentials; and false fronts maintain the vanity design when a sink does not permit space for drawers.

3 CHOOSE YOUR GLASS COLOR

Create a visually stunning vanity that's durable enough to stand the test of time. From classic finishes to statement-making matte, satin, and reeded options, Cartesian vanities are available in a wide array of glass finishes to perfectly complement your design.

GLASS ESSENTIAL PALETTE

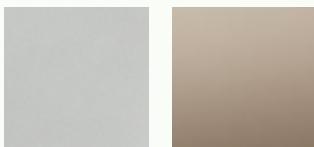

White Tinted Gray Mirror Black

GLASS CLASSIC PALETTE

Matte White Beach Reeded White Matte Sand Reeded Brass Matte Gray Matte Slate Matte Black

GLASS INSPIRE PALETTE

Satin White Satin Bronze

4 CHOOSE YOUR SIDE KITS

Available individually or as pairs, side kits are sold separately to cover any exposed sides for a visually seamless aesthetic. Side kit height options are 7-½", 15", 22-½" and 30". Side kit depth must match depth selected for your overall vanity solution. Side kits cannot be stacked on top of one another.

5 CHOOSE YOUR UPGRADE OPTION

Put the finishing touches on your Cartesian modular vanity with optional upgrades that enhance functionality, including in-drawer electrical outlets, hot tool storage, and an LED night light for easy wayfinding in the dark.
